100% Digital Lodgment

100% Digital Lodgment

In line with the Victorian Government's digital strategy, the Registrar has consulted with stakeholders about transitioning to 100% digital lodgment

- Time frames have been published in the Land Use Victoria Customer Information Bulletins
- All transactions to be **lodged** electronically from August 2019 (except SPEAR ELN transactions)
- All transactions to be **available** for electronic lodgment from August 2019 (SPEAR ELN)

100% Digital Lodgment

SPEAR ELN transactions available August 2019

Subdivision Act 1988

- Section 33(1) Alteration of lot entitlement and liability*
- Section 38 Amendment to accessory lot*
- Section 38A Removal of restricted lot status*
- Section 38B Amend scheme of development – Owners corporation
- Section 38C Amend scheme of development – Lot owner

Local Government Act 1989

- Section 207D Transfer of closed road
- Section 207E Transfer of road exchange

Major Transport Projects Facilitation Act (MTPFA)

* Stand-alone lodging party transaction

100% Digital Lodgment

Transfer of Land Act 1958

- Section 15 Application to bring land under the operation of the Transfer of Land Act 1958
- Section 26P(1) Application for deletion of warning relating to title dimensions
- Section 60(1) Application for a vesting order based on title by possession
- Section 98CA Conversion of building subdivision
- Section 99(1) Application for amendment to boundaries, area or position
- Section 103(2) Application to correct land description in the Register to accord with plan
- Section 45 Creation of easement
- Section 72 Recording of easement
- Section 88(2) Acquisition of easement or right
- Request to waive survey for an adverse possession application*
- Section 28 Register a Crown grant*
- Section 28 Register a Crown lease*

* Stand-alone lodging party transaction

100% Digital Lodgment

Road Alignments

- Lodged by surveyors
- SPEAR ELN registration not required

100% Digital Lodgment

Subject to Registrar's approval, it is **proposed** that Licensed Surveyors submit **ALL** plan and survey based applications in SPEAR from *1 January 2020*

Intention is, lodgments that are supported by paper plans and/or surveys will be refused by LUV after this **proposed** date

100% Digital Lodgment

Registrar will update the Registrar's Requirements that plans and surveys are submitted in SPEAR

This applies to all applications supported in SPEAR under the following Acts:

- Subdivision Act 1988
- Transfer of Land Act 1958
- Local Government Act 1989

100% Digital Lodgment

Transition arrangements will be in place for plans which were submitted before *1 January 2020*

The following can continue in paper:

- Plans submitted to council prior to 1 January 2020
- Plans and surveys first certified by the Licensed Surveyor prior to 1 January 2020
- Plans not submitted by a Licensed Surveyor (e.g. Removal of Restriction)
- Plans not yet supported in SPEAR (e.g. plans affecting multiple LGAs)

100% Digital Lodgment

98% of plans were submitted in SPEAR in 2018, thus the impact on industry is expected to be minimal

Surveyors are encouraged to start submitting all plans and surveys in SPEAR, if not already doing so

It is recommended that councils refuse all paper certification and joint applications received from Licensed Surveyors from *1 January 2020*, as these will not be accepted for lodgment by the Registrar

100% Digital Lodgment

Land Use Victoria will draft a consultation paper on requiring solicitors and conveyancers to lodge electronically using the SPEAR ELN

It is proposed that Licensed Surveyors will be required to electronically lodge Boundary Plans and Road Alignments

99% of Boundary Plans are currently lodged electronically

SPEAR Electronic Lodgment Network

SPEAR Electronic Lodgment Network

Current lodging party user statistics:

- 87 SPEAR ELN Subscribers
- 100+ in the process of registering

New SPEAR ELN Subscribers are being broadcast on SPEAR as they become active

- A full list of SPEAR ELN subscribers can be found on the SPEAR website:-

<https://www.spear.land.vic.gov.au/spear/spearOrganisations/List.do>

SPEAR Electronic Lodgment Network

Future process changes:

- External provider to provide VOI services for director/s or partners signing up to the SPEAR ELN
- Skype training and remote digital certificate installation

SPEAR Electronic Lodgment Network

Period	Lodged at LUV (electronic)		Lodged at LUV (total)
	#	%	#
January 2018	8	1.17%	682
February 2018	10	1.32%	756
March 2018	15	1.87%	804
April 2018	24	3.26%	736
May 2018	47	5.03%	935
June 2018	36	3.97%	906
July 2018	40	4.85%	825
August 2018	49	5.56%	882
September 2018	40	5.34%	749
October 2018	61	6.76%	903
November 2018	74	8.33%	888
December 2018	50	8.00%	625
Total 2018	454	4.68%	9691

Period	Lodged at LUV (electronic)		Lodged at LUV (total)
	#	%	#
January 2019	66	9.08%	727
February 2019	81	10.06%	805
March 2019	88	12.05%	730
April 2019	79	10.19%	775

- 10% electronic lodgments
- Over 800 transactions lodged electronically
- 300+ upcoming lodgments

SPEAR Electronic Lodgment Network

SPEAR ELN user survey conducted November 2018

SPEAR sign up and training

SPEAR Electronic Lodgment Network

SPEAR ELN user survey conducted November 2018

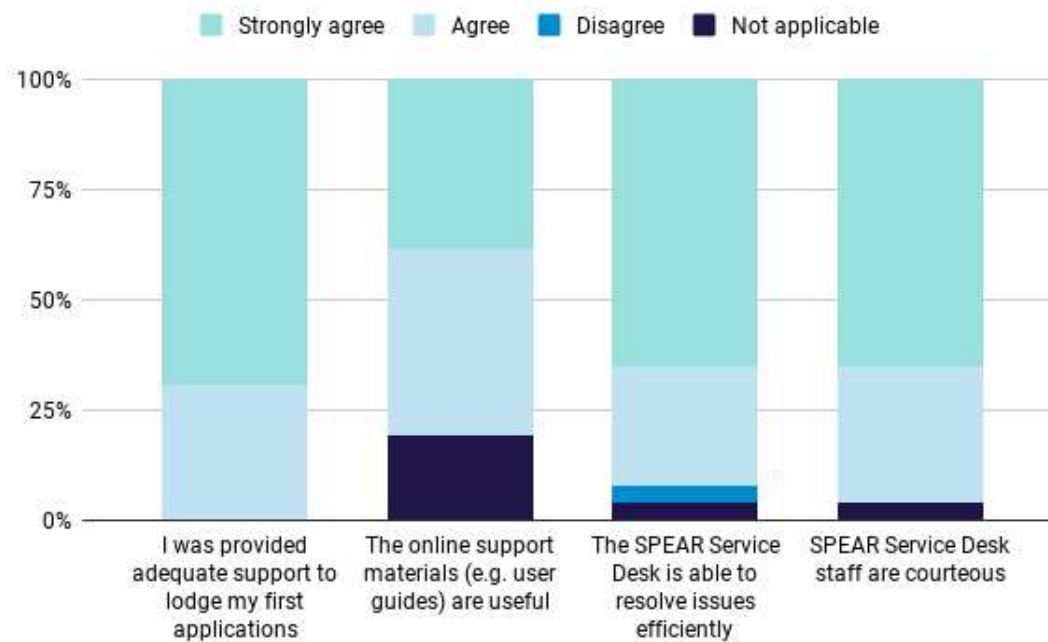

SPEAR system

SPEAR Electronic Lodgment Network

SPEAR ELN user survey conducted November 2018

SPEAR support

SPEAR Electronic Lodgment Network

“ Love it – it is a lot quicker and easier than paper lodgement
Naomi Hillas, Beaumont Lawyers

“ Very easy to use – has made lodging subdivisions much easier
Sarah Francis, SF Conveyancing

SPEAR Electronic Lodgement Network

Enhancements based on user feedback:

- More control over who can pay and lodge
- Ability to request access from surveyors
- Automatic watching
- View Refusal link – easier to find lodgment refusals

Trainee Plan Registration Officers
VPS 2

2

Phone Support Administration Officers
VPS 2

3

Trainee Crown Project Officers
VPS 2

All plan examiners are audited during the year.

The purpose of the audit program is to identify training issues, improve consistency in examination and provide personal development.

Audit includes:

- Plans
- Field records
- Created folios
- Victorian Online Titles System (VOTS)
- Consequential amendments
- Application forms

Once an audit is completed, a report of the audit is prepared and sent to the audited examiner, Branch Manager, Work Unit Manager, Training Manager & the Work Unit Specialist.

Feedback is provided by the auditor to the individual (one on one).

PLAN ACCEPTANCE

CURRENT

Plan Acceptance counter is in the process of being phased out and will cease face to face lodgements from 1st November 2019.

Currently the 'Drop Off' basket at Reception for plans and plan-related dealings will generally be lodged on the same day. Confirmation of lodgements or refusals can be picked up from the Reception desk.

All 'one off customers' will be assisted by staff if required.

FUTURE

From the 1st November 2019, any subdivisional lodgements and plan related dealings must be placed in the 'Drop Off' Basket for lodging.

SRO is required, where a property is affected by a GAIC (Growth Area Infrastructure Contributions) notice, to provide either a removal of notice or consent to registration (sometimes both) to precede registration of a plan of subdivision

Initial discussions between SRO and LUV proposed SRO provide GAIC consent or remove GAIC notice when land is subject to a subdivision application in SPEAR

Benefits:

- Ensures GAIC consent / removal is lodged in conjunction with the plan, avoiding timing issues
- Ensures plan and GAIC dealings are processed together
- Enables lodging party (solicitor / conveyancer) to pay any associated GAIC lodgment fees

SUPPLYING OWNERS CORPORATION SPREADSHEET

- Since SPEAR Release 4.2 (November 2015), surveyors have been able to supply their Owners Corporation (OC) data onto a spreadsheet and upload it in SPEAR
- Once supplied, SPEAR validates and generates the OC schedule from the data and attach it to the plan PDF
- The OC schedule spreadsheet template is available within SPEAR and on the SPEAR website - refer to Tech Note 4

SUPPLYING OWNERS CORPORATION SPREADSHEET

- A master macro-enabled spreadsheet is also available to specifically support plans with multiple OC's
- Maintaining your OC data in the master macro spreadsheet ensures you only need to make changes in the one place. The spreadsheets that are ultimately uploaded in SPEAR are automatically generated from this master spreadsheet and a date/time stamp is added to each OC.

AUTOMATING TITLE CREATION

- As part of the subdivision registration process, plan examiners are required to setup and create new titles for all new parcels
- In a future enhancement of the Victorian Online Titles System, creation of new titles will be pre-populated with the new parcel information contained in the ePlan (LandXML) file

MAJOR TRANSPORT PROJECTS FACILITATION ACT

Major Infrastructure Projects and Updating the Register

Projects are aligned to delivering capabilities with future needs around:

- Roads
- Rail Networks

Projects Authorities will update the Freehold Register and the newly created Crown Register (August 2016) by recording their acquisitions.

Land Use Victoria has worked with relevant stakeholders to implement a streamlined process, resulting in a new dealing type.

MAJOR TRANSPORT PROJECTS FACILITATION ACT

In 2009, the state government passed a bill that created the Major Transport Projects Facilitation Act (MTPFA).

This Act allows for the acquisition of land in both Crown and Freehold.

A section was included to ensure updating of the Register:

“Make any recordings in the Register that are necessary because of the operation of this Act...”

The Register is now maintained by lodging a Section 259 MTPFA dealing.

Removal of warnings on Provisional folios after 15 years.

LUV will undertake a project to ensure that folios affected under *Section 26Y of the Transfer of Land Act 1958* are rectified to accord with the legislation.

Transfer of Land Act 1958

Section 26Y: Provisional folio becomes an ordinary folio after 15 years

- *A provisional folio of land brought under this Act becomes an ordinary folio, unless an ordinary folio of the land has otherwise been created, 15 years after the creation of the provisional folio.*

This section has been in place since September 2017 and the legislation does have consequences for those who may benefit from Sec 26P of TLA, as Warnings as to Dimensions will be removed as part of this process.

The Registrar will continue to examine those 26P applications currently lodged with LUV. However, it is advised that research be undertaken on any folio with the warning to ensure if it is in the 15-year period or not.

If beyond the 15-years, the Registrar will not entertain the use of 26P even if the warning is still shown on the folio and or Title Plan (TP).

The Checklist supporting the lodgement of Section 26P applications will be updated accordingly, to ensure those seeking to undertake this process go through the required checks.

There will be a project to remove the expired warnings from the folios, however this process will take some time and as a result a warning may appear on a folio or diagram that is no longer in effect.

BUSINESS ENQUIRES

Detailed information relating to Land Titles can be found on our website

<https://www.propertyandlandtitles.vic.gov.au/land-titles/subdivision-and-consolidation>

Information relating to Forms, guides & fees can be found via the following link:

<https://www.propertyandlandtitles.vic.gov.au/>

Forms, guides and fees

Land Use Victoria provides forms for property transactions and dealings, associated guides and fee listings.

Overview and instructions

Instructions for each form can be found in the associated guide.

Transfer of Land Act

Includes property transfers, mortgages, caveat and deceased estates.

Subdivision Act

Forms for subdivisions, owners corporations, and easements.

Title management

Certificate of Title management.

Other Acts

Land Acquisition, the Compensation Act, and Climate Change Act.

Water Registrar forms

Lodge a transaction of a water share with the Water Registrar.

Local Government

Forms for the Local Government Act and Planning and Environment Act.

Fees and direct debit

Property transaction and search fees, direct debit information.

QUESTIONS ?

Building Victoria's Cadastre for the Digital Future

Victoria's Digital
Cadastre
Modernisation
Project

Environment,
Land, Water
and Planning

Watch our video

<https://www.youtube.com/watch?v=KNqtuy8MbwE>

- This project is about improving the accuracy of the State's Digital Cadastre
- Has been referred to as the *Digital Cadastre Modernisation* project or 'DCM'

Terminology note

- We are actually referring to the ***digital representation of the cadastre***, but for brevity the project will be known as the ***Digital Cadastre***

Key Points

- Four Years
- \$45m Investment
- Four inter-related stages & deep stakeholder engagement
- Innovation and early realisation of benefits

- The current digital representation of the cadastre is missing large amounts of important survey positioning data which is still in paper and PDF formats - much of it in archives.
- There are significant spatial inaccuracies in the current cadastral boundaries represented in Vicmap Parcel and Property.
- Missing data and inaccuracy inhibits efficiency and productivity gains which are important for the Victorian economy.

Boundary Inaccuracy not sustainable in a digital world

Current
Vicmap
property
boundaries

Real world
boundaries

Project Phases

Back Capture

- Accurate data from each plan is captured and converted into a digital record

Adjust

- Data from plans is joined and mathematically adjusted to improve spatial accuracy

Integrate

- The updated data is published, and changes in location cascaded through all Vicmap layers

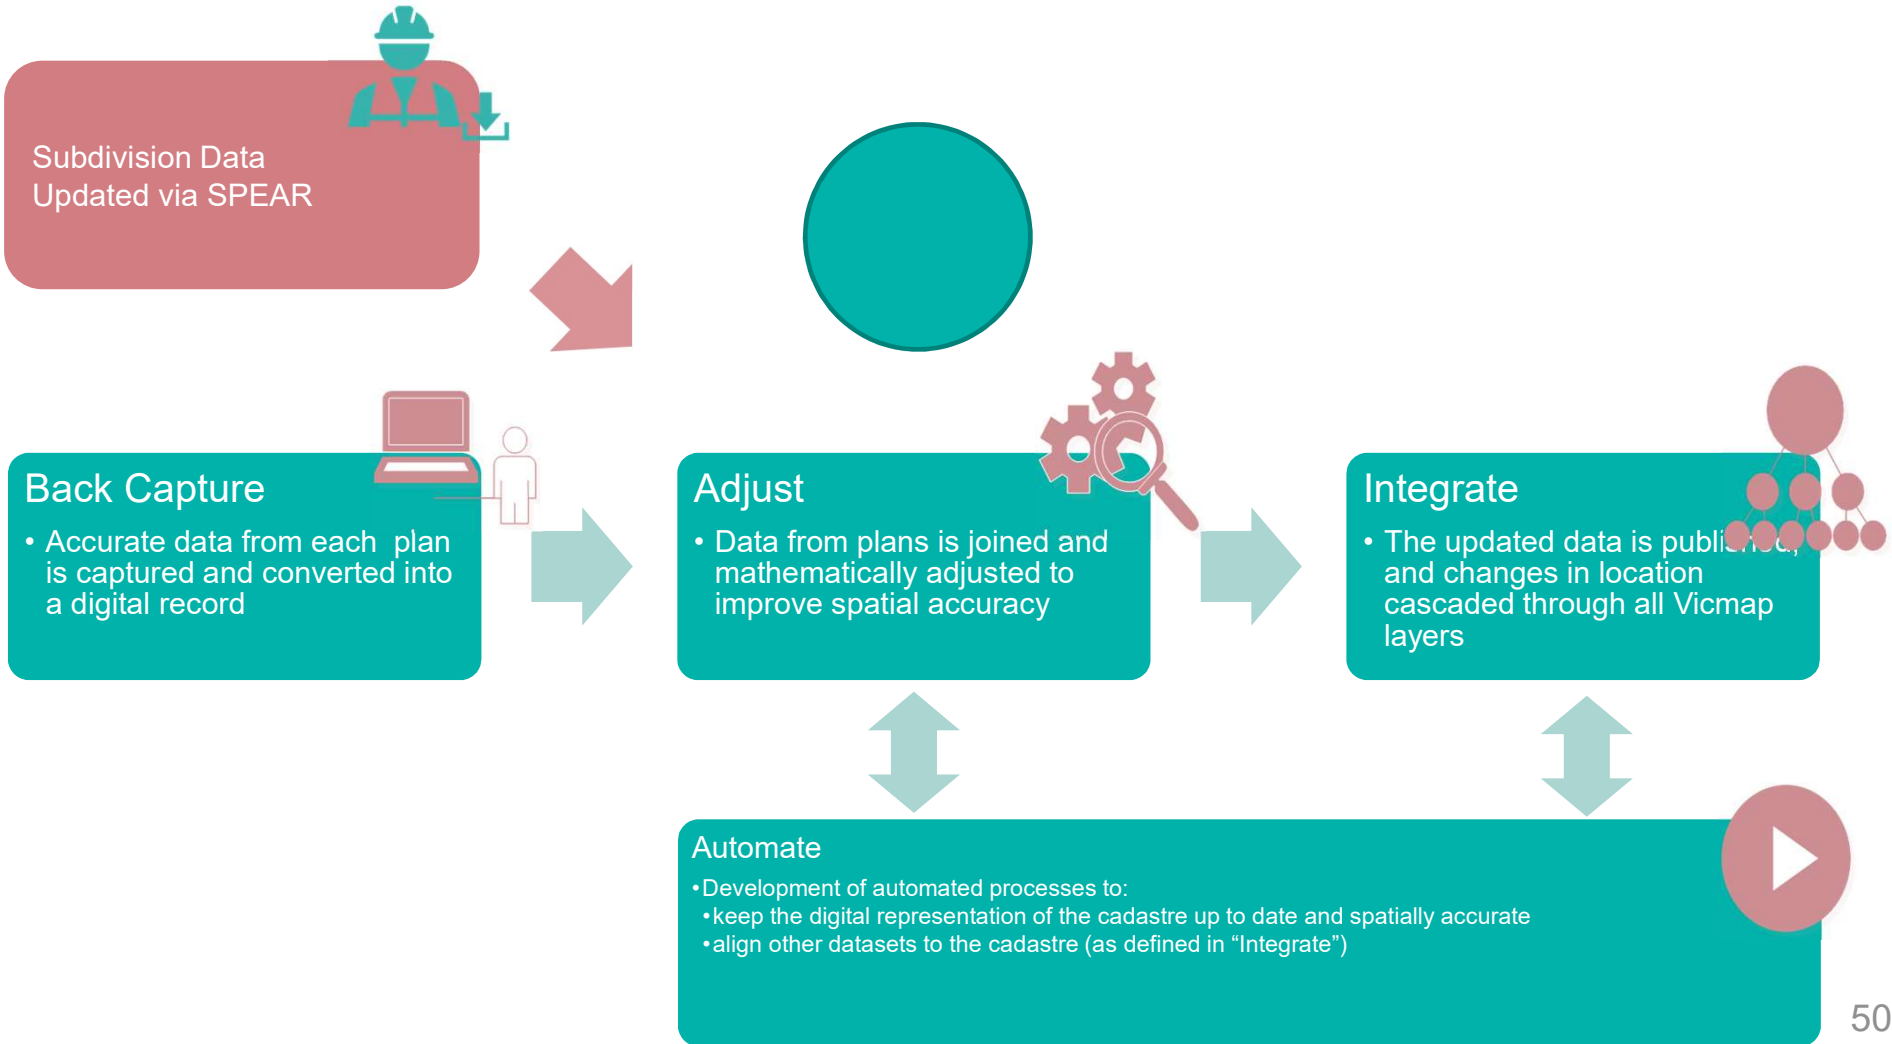

Automate

- Development of automated processes to:
 - keep the digital representation of the cadastre up to date and spatially accurate
 - align other datasets to the cadastre (as defined in "Integrate")

The project is situated in Land Use Victoria at DELWP

- **Team of 16 and growing, including:**
- **Roger Fraser - Chief Geospatial Scientist**
- **David Blain - Integration Manager**

Project Phases

Digital cadastre modernisation

Back Capture Stage

Accurate data from each paper plan is converted into a digital record (LandXML)

Adjust Stage

Data from individual plans is joined and adjusted to fully align (within 50cm rural and 10cm metro)

Automate Stage

Updating future data and use of newly back captured files in modern systems

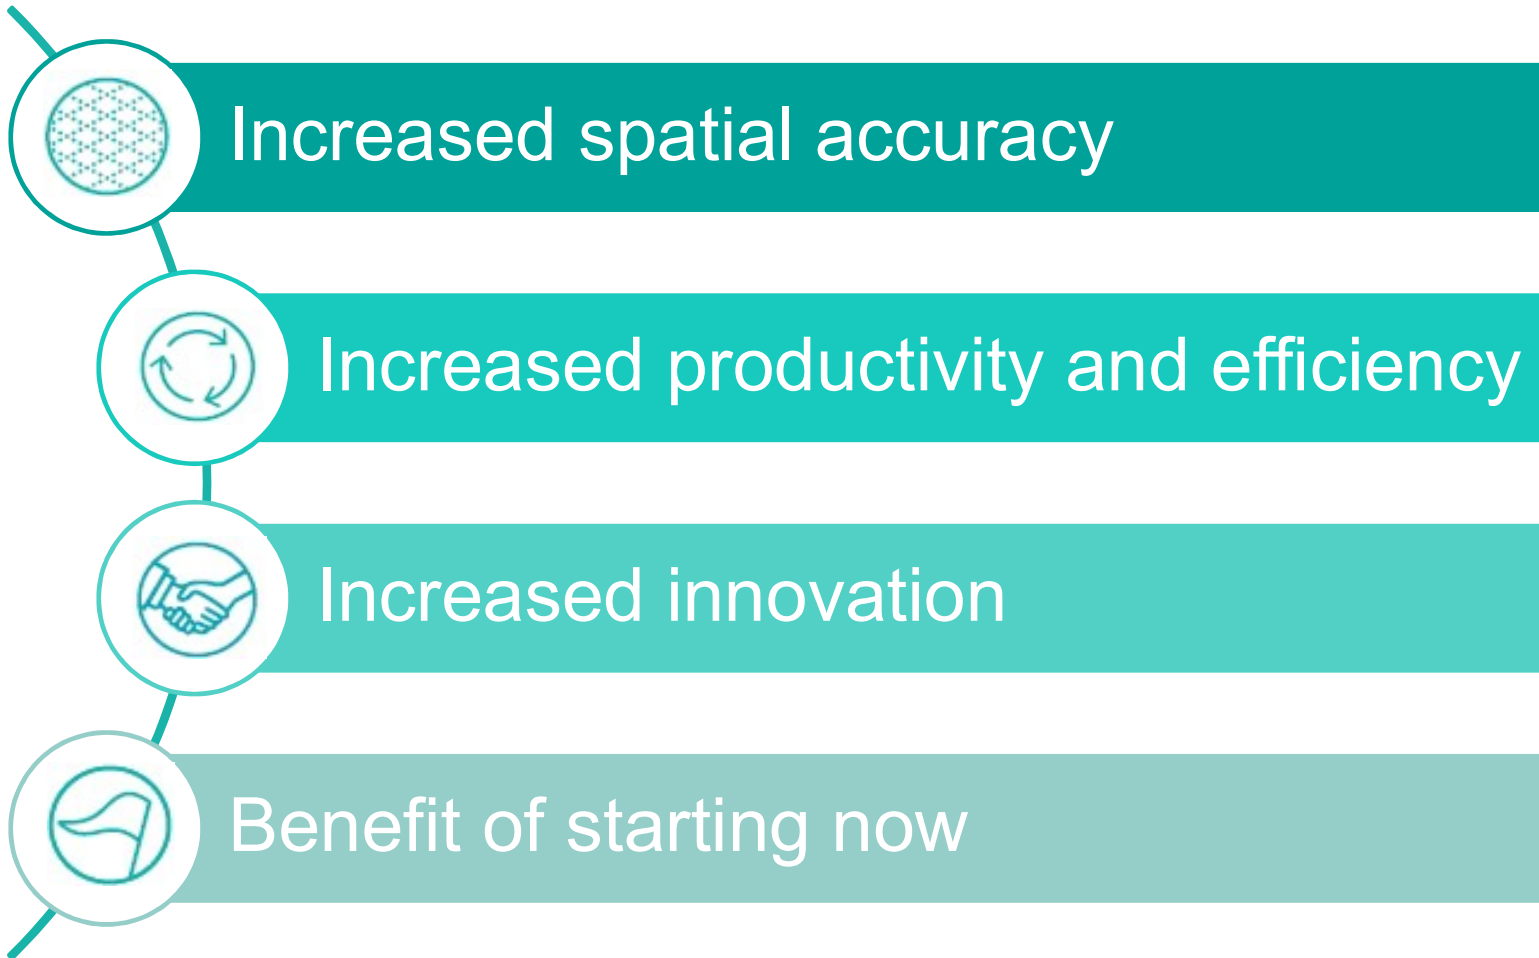

Integrate Stage

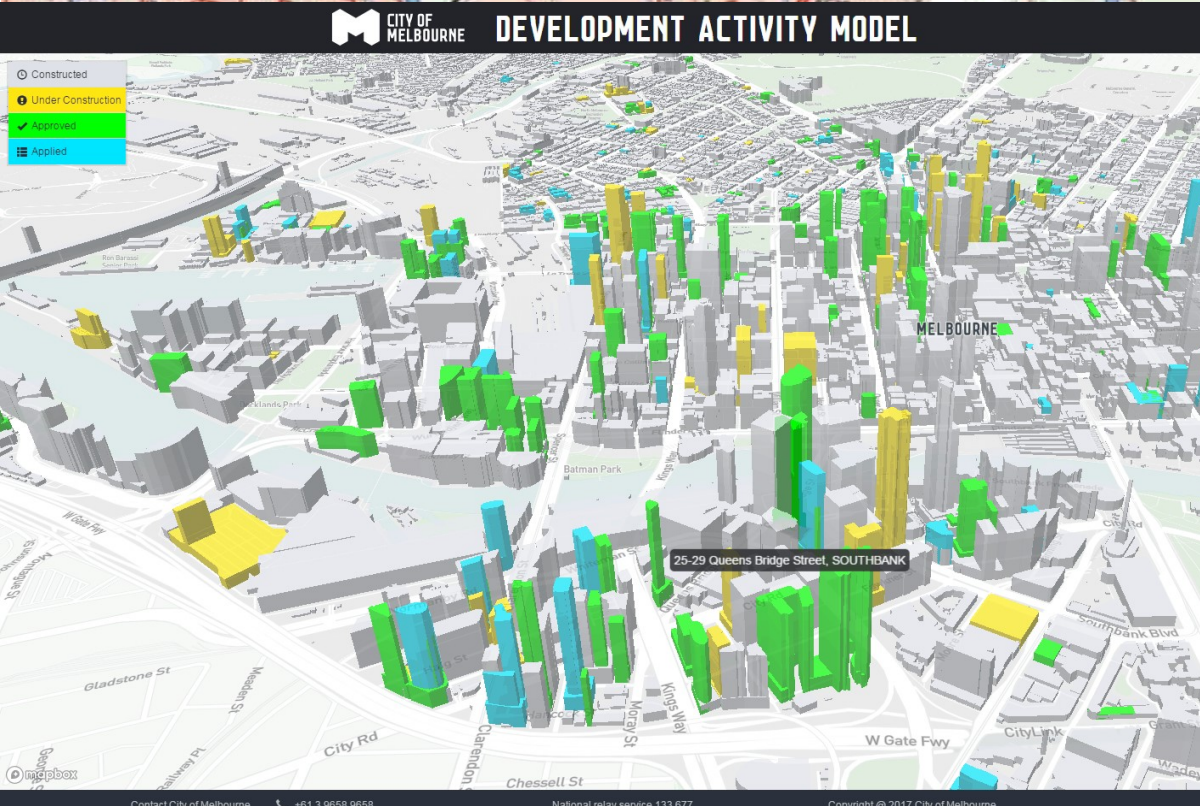

The new cadastre is published in the state's authoritative map base (Vicmap), and location changes cascaded through other Vicmap Products and made available to the public

Identified project benefits

Improving core business through innovation

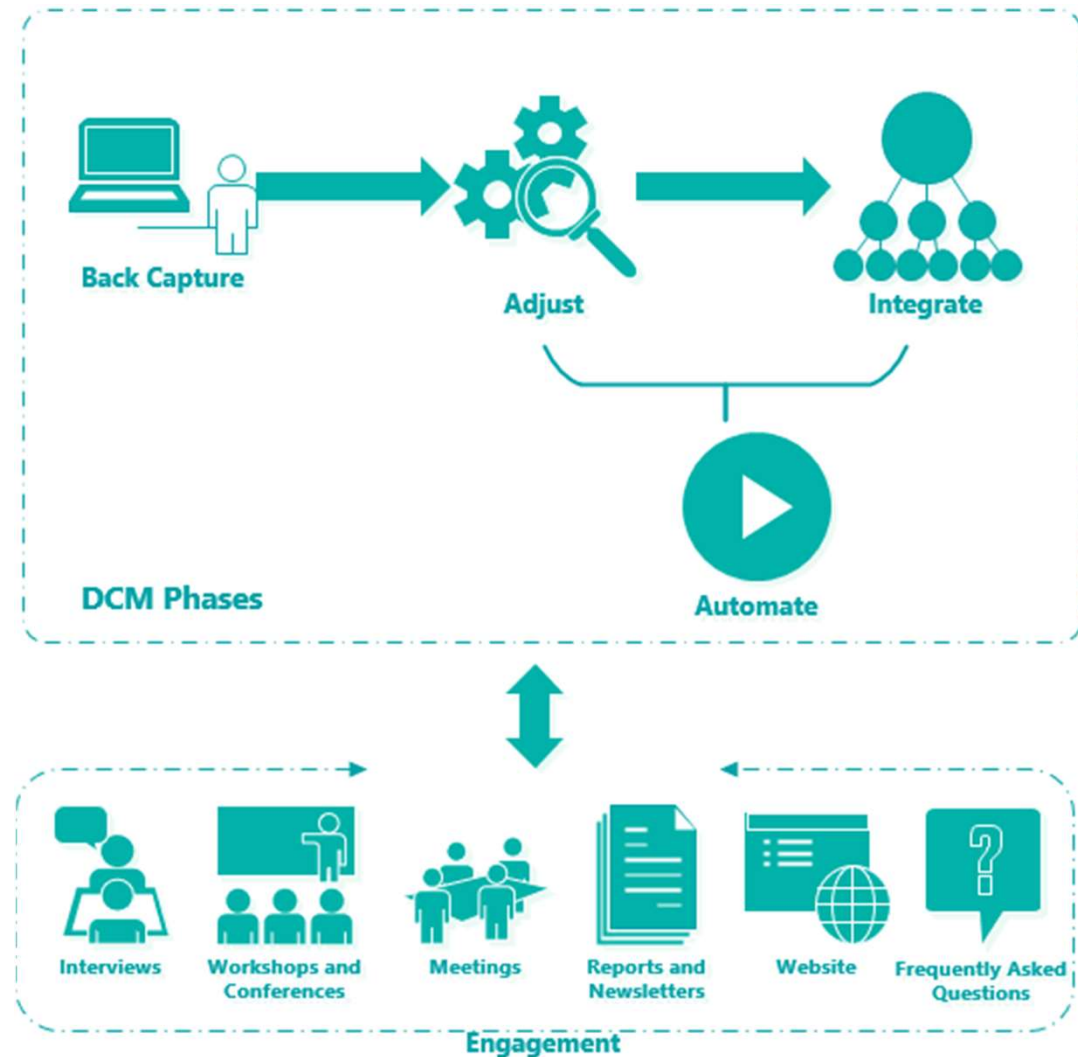

Stakeholder engagement and change management

What we want to explore with you:

- How will DCM impact your workflows and business?
- When and how do you want to get information?
- How can we involve you during the *Integrate* and *Automate* phases?
- **What do we need to be aware of?**
- **Do you need to make us aware of any impacts - e.g. legal implications?**
- How this project intersects with other change processes (e.g GDA2020, ePlan)?

Nominate to sit on one of the Stakeholder Reference Groups for this project

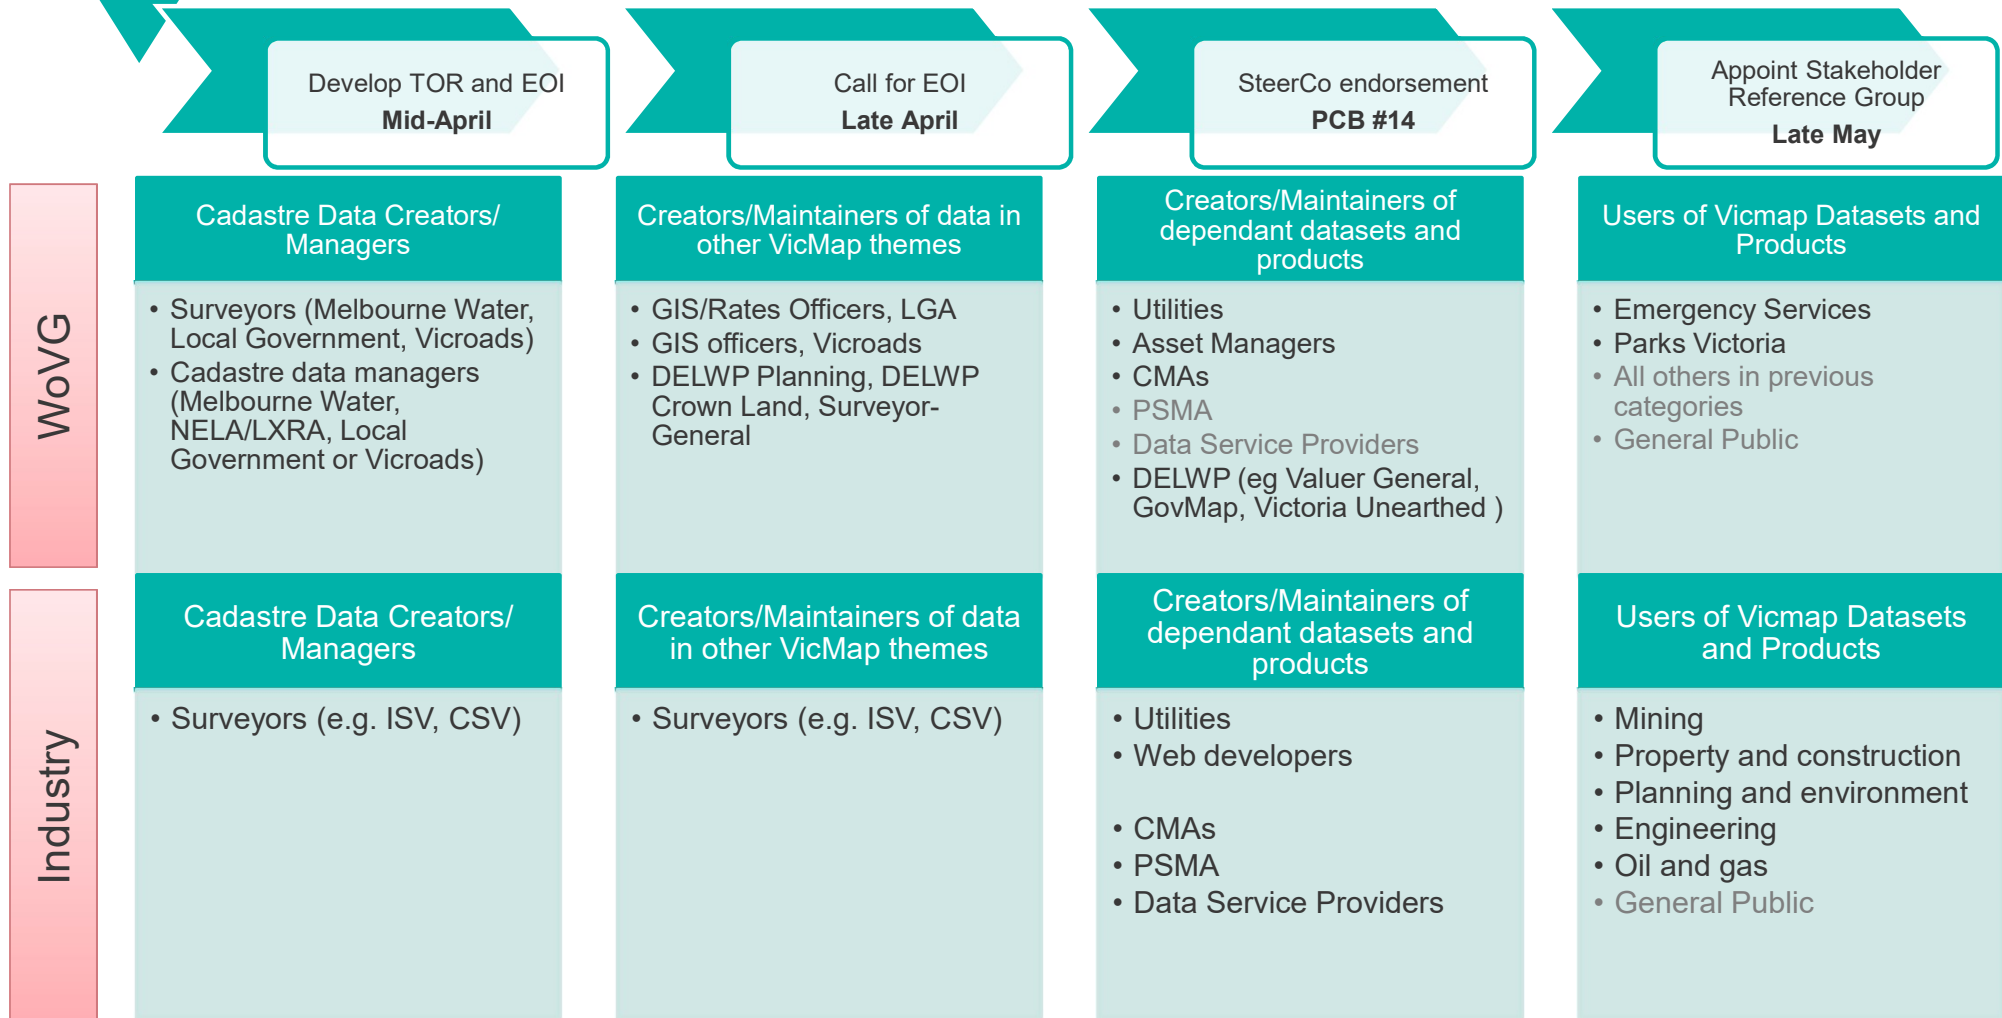

State and Local Government Reference Group

- from all relevant areas, from all tiers of government and government agencies

Industry and Research Reference Group

- Utility Providers
- Surveying profession
- Spatial profession
- Universities/researchers
- Training providers
- Data aggregators
- Building, property and construction sector
- Industry bodies

7. Industry and Government Reference Groups - Process

- Diverse representation across both industry, geography, background and perspective
- Well-networked in sector they represent
- Committed to acting as an industry advocate
- Motivated to contribute positively and constructively to the debate in a respectful and collaborative fashion
- Relevant skills and experience
- Able to commit to the work.

Keep updated on our project

Responsible Authority Manage Fee Types

Enable Responsible Authority Local Administrators to:

- define a credit card surcharge (if applicable)
- configure custom fee types

The screenshot shows a web interface titled "Manage Fee Types". It features a table with three columns: "Fee Type Name", "Fee Type Code", and "Surcharge *". The "Surcharge" column has a text input field containing "0.12" followed by a "%" symbol. Below the table, there are several rows of fee types, each with a "delete" link. The "Council_Other" row is highlighted in yellow. At the bottom left, there is a link "Add Fee Type". At the bottom right, there are two buttons: "save & exit" and "cancel".

Fee Type Name	Fee Type Code	Surcharge *
Statutory	STA	0.12 %
Advertising	ADV	
Inspection	INS	
Other	OTH	
Council_Other	COU	delete

[Add Fee Type](#)

[save & exit](#) [cancel](#)

Release 4.9

Responsible Authority Manage Fee Types

The custom fee type and surcharge amount will be visible to the user on the Payment screen with the calculated surcharge added to the amount payable

Pay Fee to Responsible Authority

Please note that payment from SPEAR is currently only available using a credit or debit card.

* Indicates a mandatory field

Check that the following details are correct before continuing.

Responsible Authority:	City Council
SPEAR Ref No:	S503545P
Fee Type:*	Council_Other ▼ \$ 50.50
Surcharge Applied (0.12% set by City Council)	\$ 0.06
Amount to Pay:*	\$ 50.56

**Additional information for
Responsible Authority**

Release 4.9

Non Statutory referral authority

SPEAR to allow Responsible Authorities to define an internal referral site, as a statutory referral authority

Determine referral requirements					
Statutory	Don't Refer	Section 8	For Information Only	For Comment	
 City Council - Engineering Department	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Add Comments
Melbourne Water	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Add Comments
Origin Energy	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Add Comments
Non-Statutory	Don't Refer	Comment on Certification & SOC	For Information Only		
City Council - Environmental Health Officer	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>		Add Comments

Release 4.9

Referral Authority

Referral authorities will be displayed as either statutory or non statutory on the Details screen and on the Determine Referral Requirements screen

▼ Referral Authorities - Actions required (hide)		
▼ Statutory (hide)		
Electricity Authority		
RA Response (Certification, SOC)	Not supplied	(View Referral 04/04/2019)
Gas Authority		
RA Response (Certification, SOC)	Not supplied	(View Referral 04/04/2019)
Water Authority		
RA Response (Certification, SOC)	Not supplied	(View Referral 04/04/2019)
▼ Non Statutory (hide)		
City Council - Environmental Health Officer		
RA Response (Certification, SOC)	Not supplied	(View Referral 04/04/2019)

Release 4.9

Non Statutory referral authority

Non-statutory authorities (internal referrals) will indicate the nature of their response to a referral request, similar to a statutory referral authority

Example: A permit referral would allow the following response options:

- Consent
- Object
- Further Action Required
- No referral required

Release 4.9

Non Statutory referral authority

NOTE: A 'further action required' response from a non-statutory authority **is not an RFI** and does not prompt the surveyor to respond

If required, the Responsible Authority user should request further information from the Applicant Contact in SPEAR

Release 4.9

Expiring a planning permit

Responsible Authority users will be able to 'Expire Permit Application' and move it to the Completed list

This overcomes the issue where new plans for endorsement are required, but the permit expires before they have been supplied by the Applicant Contact

Release 4.9

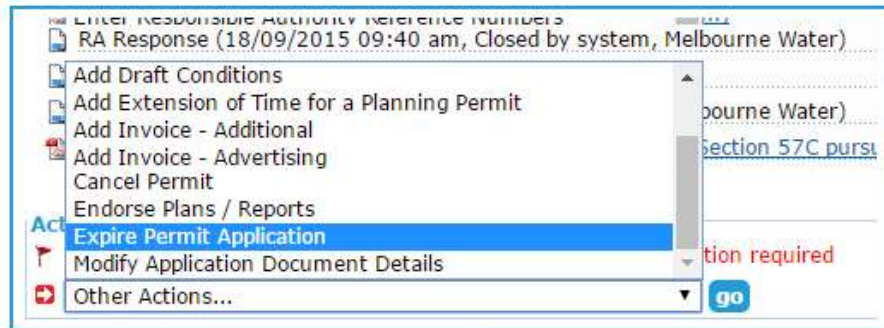

Expiring a planning permit

Planning permit expiry is supported by:

- PDF / free text justification
- New notifications to Applicant Contact and referral authorities advising that the application has been expired
- Activity log event showing that the application has been expired and moved to the Completed list
- Improved planning permit expiry warnings / reminders to the Applicant Contact and Responsible Authority, at three months and one month before the permit is due to expire

Release 4.9

Expiring a planning permit

Expire Permit Application

Select the OK button if you wish to expire this application. The application will be removed from your 'Current Applications' list and can be viewed via your 'Completed Applications' list.
Expire Permit Application comments to be attached

Attach file (pdf, A4, Max file size 10240 KB)
 No file chosen

OR

Enter Expire Permit Application comments directly

Release 4.9

Confirm / amend permit number

As part of the Certification Decision, the Responsible Authority will need to confirm the planning permit reference number when the status of the originally described planning permit is:

- Lapsed
- Not Required
- Refused
- Withdrawn
- Cancelled
- Expired

Release 4.9

Confirm / amend permit number

A warning will appear on the Certification screen prompting the user to review the reference number and update on screen

Certification of plan by Council (Form 2)

The Planning Permit in this application has been marked as LAPSED. The Responsible Authority Permit Ref. No. for this application may no longer be relevant or may need to be updated. Please update the number below if a new planning permit has been issued or remove it if a planning permit is not required for this application.

SUBDIVISION (PROCEDURES) REGULATIONS 2011

SPEAR Reference Number: S039364T

Responsible Authority Name: City Council

Responsible Authority Permit Ref. No.: PP_042016

Responsible Authority Certification Ref. No.: PP_042016

Surveyor's Plan Version: 1

Certification

- This plan is certified under section 6 of the Subdivision Act 1988
- This plan is certified under section 11 (7) of the Subdivision Act 1988
Date of original certification under section 6: __ / __ / __

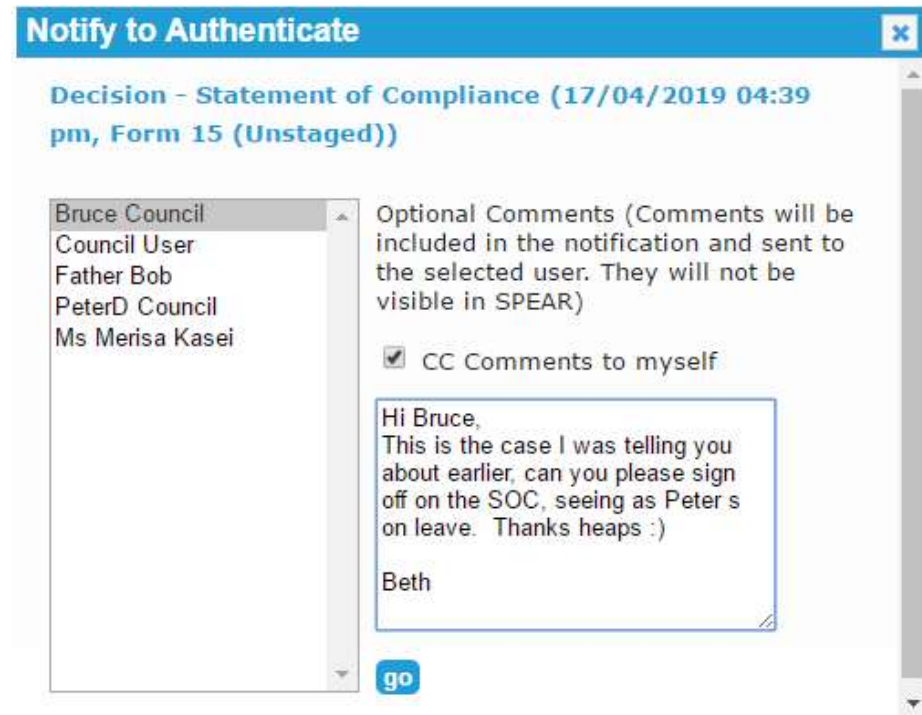

Release 4.9

Enhance work-flow notification functionality

Users may add comments (optional) when using the 'Notify for Authentication' action

Comments will not be visible in SPEAR, or stored in application

Comments will only appear in the email notification(s) sent by the system

The screenshot shows a dialog box titled "Notify to Authenticate" with a close button (X) in the top right corner. Below the title bar, the text reads "Decision - Statement of Compliance (17/04/2019 04:39 pm, Form 15 (Unstaged))". On the left side, there is a list of users: "Bruce Council", "Council User", "Father Bob", "PeterD Council", and "Ms Merisa Kasei". To the right of this list, there is a text area for "Optional Comments (Comments will be included in the notification and sent to the selected user. They will not be visible in SPEAR)". Below the text area, there is a checked checkbox labeled "CC Comments to myself". The text area contains the following message: "Hi Bruce, This is the case I was telling you about earlier, can you please sign off on the SOC, seeing as Peter s on leave. Thanks heaps :)". Below the text area, the name "Beth" is entered. At the bottom right of the dialog box, there is a blue "go" button.

Release 4.9

Improve 'Notes' functionality

- Update the Notes tab to allow users to notify other users within their organisation when a new note has been added

Release 4.9.5

Extend SPEAR ELN to support additional applications

- Extend the SPEAR Electronic Lodgment Network (ELN) to cater for additional application types to be created and/or lodged by either Applicant Contact, lodging party or both
- To improve existing ELN functionality with enhanced workflows and usability improvements

Release 4.9.5

Extend SPEAR ELN to support additional applications

Lodging party is able to create some applications without the surveyor initiating the process in SPEAR

- Applications that are created **only** by the lodging party:

Act	Sec	Dealing Description
Transfer Of Land Act	15 or 60	WAIVE SURVEY
	28	CROWN GRANT
	28	CROWN LEASE
Subdivision Act	33(1)	CHANGE LOT ENTITLEMENT/LIABILITY
	38	Accessory lot – removal
	38 A	Notice of restriction – removal

Release 4.9.5

Extend SPEAR ELN to support additional applications

- Applications that can be created by **either** the surveyor or lodging party:

Act	Sec	Dealing Description
Transfer of Land Act	15	GENERAL LAW CONVERSION - SURVEY
	45	CREATION OF EASEMENT
	60(1)	ADVERSE POSSESSION
	72	RECORDING OF EASEMENT
	88(2)	ACQUISITION OF AN EASEMENT OR RIGHT
Major Transport Project Facilitation Act	259	MTPFA
Subdivision Act	38 B	AMEND SCHEME OF DEVELOPMENT - OWNERS CORPORATION
	38 C	AMEND SCHEME OF DEVELOPMENT - LOT OWNER

Release 4.9.5

Extend SPEAR ELN to support additional applications

- Enable electronic lodgment of Crown grant applications in SPEAR:
Crown Grant dealings will be specifically created and lodged by users from the Department of Treasury and Finance
- Enable electronic lodgment of Crown Lease applications in SPEAR by DELWP and other users associated with alpine regions

Release 4.9.5

Extend SPEAR ELN to support additional applications

- Allow surveyor to create an electronic lodgment form for Road Alignments – Local Government Act, similar to the existing process for lodgment Boundary Plans
- Allow TLA, LGA, OTH and OP applications to be displayed in the public search so that lodgment parties can search and obtain the SPEAR reference number to requests for lodgment party access

Release 4.9.5

Extend SPEAR ELN to support additional applications

- Remove the requirement to nominate a title for an electronic lodgment if the lodging party controls it (eCT only)
- Allow lodging party access requests to be made after an application is released for lodgment

Release 5.0

- Java replacement to support digital signing
To be discussed in more detail in the Service Desk Update
- Surveyors to purchase plan numbers through SPEAR
Allow surveyors to purchase plan numbers through SPEAR, indicate how many are required, online payment, and digital download of purchased numbers

Release 5.0

- Improve document upload process to cater for multiple uploads
- Allow JPEG files to be uploaded

This change will improve efficiency and user experience when attaching multiple documents, such as copies of title or site photos. Part of this change proposes to allow additional file types such as JPG to be uploaded to SPEAR

Release 5.0

- Improve the way SPEAR handles address entry
- Improve document grouping

Display related documents (e.g. a superseded planning permit and an amended planning permit) as a single line-item on the Details screen. Once clicking on the single item, SPEAR should display the current document and any superseded versions

Release 5.0

- Improvement to the guest invitation process
Allow the Applicant Contact to cc themselves when inviting guests into an application. This will copy the request, together with any optional text to the Applicant Contact for their records

Release 5.0

- Improve payment error code message

Display the correct contact instructions depending on the category of error, resulting in a better customer experience when things go wrong

Release 5.0

- Provide the ability for VicRoads to submit SP plans in SPEAR

Allow for VicRoads SP (Survey Plan) applications under the Road Management Act to be created and submitted in SPEAR

Future Releases: 2020 and beyond

- Add an address book to pre-populate client details and email addresses
- Introduce a re-certification process for Plans of Crown Allotment (OPs)
- Develop a work flow for handling plans that span two or more municipalities
- Check surveyor's registration status when signing in SPEAR

Future Releases: 2020 and beyond

- Allow referral authorities to compile their responses from a list of standard response options which they maintain
- Remove the requirement for surveyors to re-sign a document after rotating it
- ePlan to support additional dealing types including, SGV, TLA and LGA dealing types

SPEAR Modernisation Project

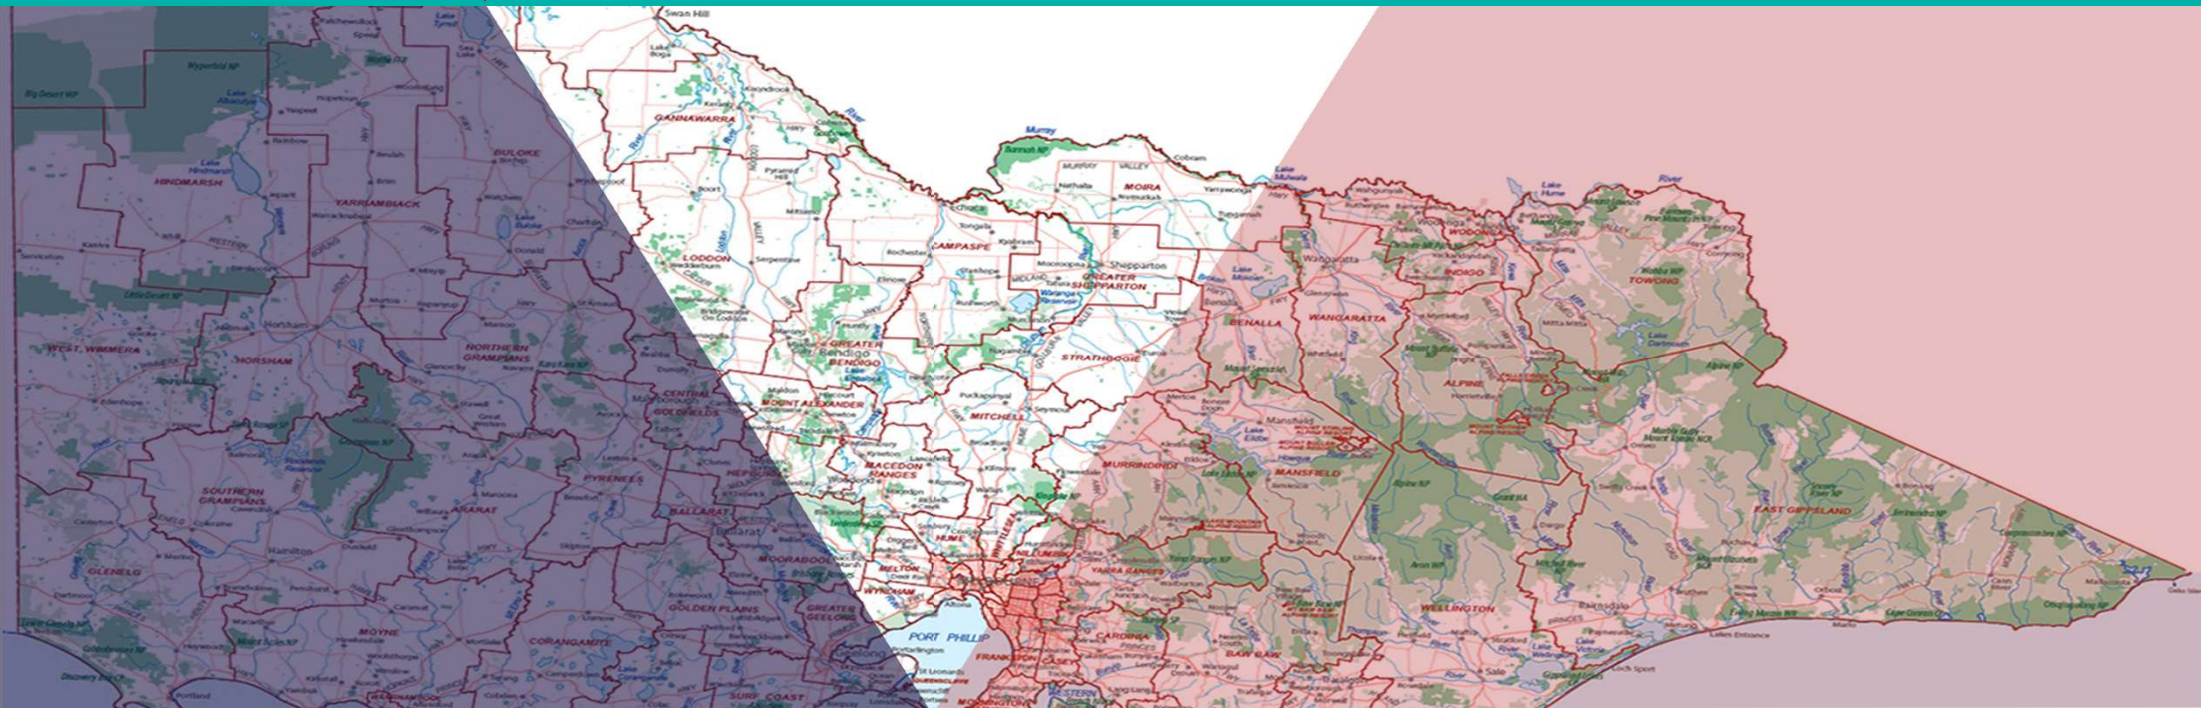

SPEAR is undergoing a modernisation refresh by upgrading its technologies and framework

This project has just commenced, with completion expected in June 2020

Current SPEAR functionality will not change and ESU are being provided weekly updates through the life of the project

Subdivision
audits -
Statistics

Plans of Subdivision Audited July 2011 to December 2018

■ Number of Plans of Subdivision Audited	13	44	59	116	97	60	102	100
■ Number non-compliant	5	10	10	11	16	20	13	19

- Focus on audits of plans of subdivision,
- Increase in compliance rates

- Education / Training

Compliance

How to do this?

- Aboriginal culture and occupation of the land,
- Local flora and fauna,
- Australian war contributions,
- European exploration and settlement,
- Local geography and geology,
- European exploration and settlement,
- Significant events,
- Cultural diversity of past and current inhabitants,
or
- Patterns of land usage and
industrial/mineral/agricultural production.

Who can help?

- Council,
- RSL,
- Historical Society,
- Traditional owners.

Road name history/origin form

Please provide the following information when submitting a road name proposal	
Road name and number <i>(e.g. <u>Smiths</u> Road, Road 1, R1)</i> <i>(e.g. Whites Close Common Property, CM1)</i>	
Location of road/plan of subdivision number <i>(e.g. <u>Smiths</u> Road located between Bulgar Avenue and Swiss Court)/(PS4176)</i>	
Focussing on Principle (C) Linking the name to place, please explain how the proposal fulfils this principle. <i>(Further information on recording the source of the road name origin is in the Guide to VICNAMES at www.propertyandlandtitles.vic.gov.au/namingplaces >Vicnames.)</i>	

<https://www.propertyandlandtitles.vic.gov.au/naming-places-features-and-roads/naming-rules-for-places-in-victoria>

3 Roads

3.1 What is a road?

For the purposes of these naming rules, a road is considered to be any public or private land-based thoroughfare or course navigable by vehicle or foot. It can be used for assigning addresses or allowing access between points or to a feature. Examples of roads include alleyways, streets, highways, fire tracks, bike paths and walking tracks.

3.2 Statutory requirements applied to roads

- [3.2.1 Rural and urban addressing](#)
- [3.2.2 Extent: Road course and start and end points](#)
- [3.2.3 Road Types](#)
- [3.2.4 Unacceptable road names](#)
- [3.2.5 Obstructed or altered roads](#)

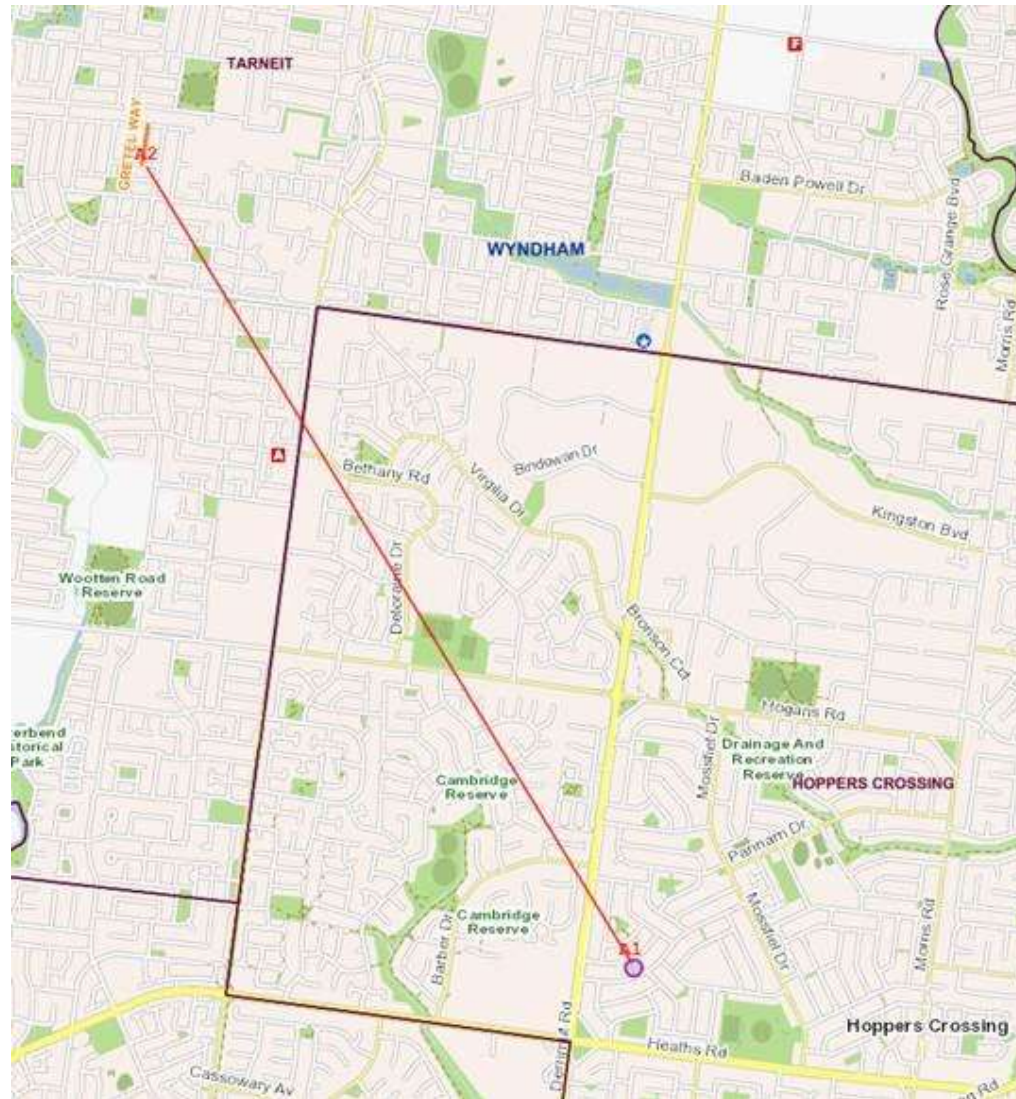

Popular road types

Road Type	Abbreviation	Description
ROAD	RD	A place where one may ride; an open way or public passage for vehicles, persons and animals; or, a roadway forming a means of communication between one place and another.
CRESCENT	CR	A crescent-shaped thoroughfare, especially where both ends join the same thoroughfare.
DRIVE	DR	A wide thoroughfare allowing a steady flow of traffic, without many cross streets.
STREET	ST	A public roadway in a town, city or urban area; especially a paved thoroughfare with footpaths and buildings along one or both sides.

Appendix A is available online:

<https://www.propertyandlandtitles.vic.gov.au/naming-places-features-and-roads/naming-rules-for-places-in-victoria>

What not to do - Duplication

Naming Common property / Driveways

Naming Common property / Driveways

- 4.6.1 enduring road names
 - Road names are intended to be enduring and shall only be changed when necessary.
- Resolution
 - importance of geographical names as part of a nation's historical and cultural heritage.

Commercial names – inappropriate names

Quick reference guide for land surveyors

Road naming
Quick reference guide for land surveyors

This guide is an excerpt from *Naming rules for places in Victoria, Statutory requirements for naming roads, features and localities – 2016* (the naming rules).

The full version of the naming rules is found at www.propertyandlandtitles.vic.gov.au/namingplaces.

Road names can recognise and reflect culture, heritage and landscape, and add value to Victoria's identity. Appropriate naming is essential to identify locations for managing emergencies and delivering goods and services in Victoria.

When selecting road names for plans of subdivisions, surveyors and developers should consult with the relevant municipal council to undertake the following:

- where appropriate, consider adapting a theme for road naming
- check that the road names comply with the general principles in section 2 and the statutory requirements applied to roads in section 3, under the naming rules
- seek municipal council approval of the selected road names.

VICNAMES – The Register of Geographic Names

- [Register of Geographic Names - VICNAMES](#)
- How to

The screenshot displays the VICNAMES website interface. At the top, it says "VICNAMES - The Register of Geographic Names" with a search bar and "Login / Register" and "Help" buttons. Below the search bar is a map of Victoria. A central popup window contains the following text:

VICNAMES allows you to search all registered and recorded place names in Victoria.

VICNAMES holds approximately 200,000 road names and approximately 45,000 place names. It includes geographic features such as mountains and rivers, bounded localities such as suburbs, towns, cities and regions and physical infrastructure such as roads, reserves and schools.

It is used to:

- assist naming authorities ensure a proposed name will not be a duplicate
- provide details on the location and extent of geographic features, localities and roads
- record or find historical information on place names

Anyone can add historical information to records in VICNAMES; however, the information would be approved by Regional Content Administrators before publishing to the site.

ePlan 2025 Vision

**Implement ePlan for all
Victorian 2D & 3D
cadastral plans &
surveys by 2025**

ePlan 2025 Roadmap

Recent / Ongoing Initiatives (2016 - 2019)

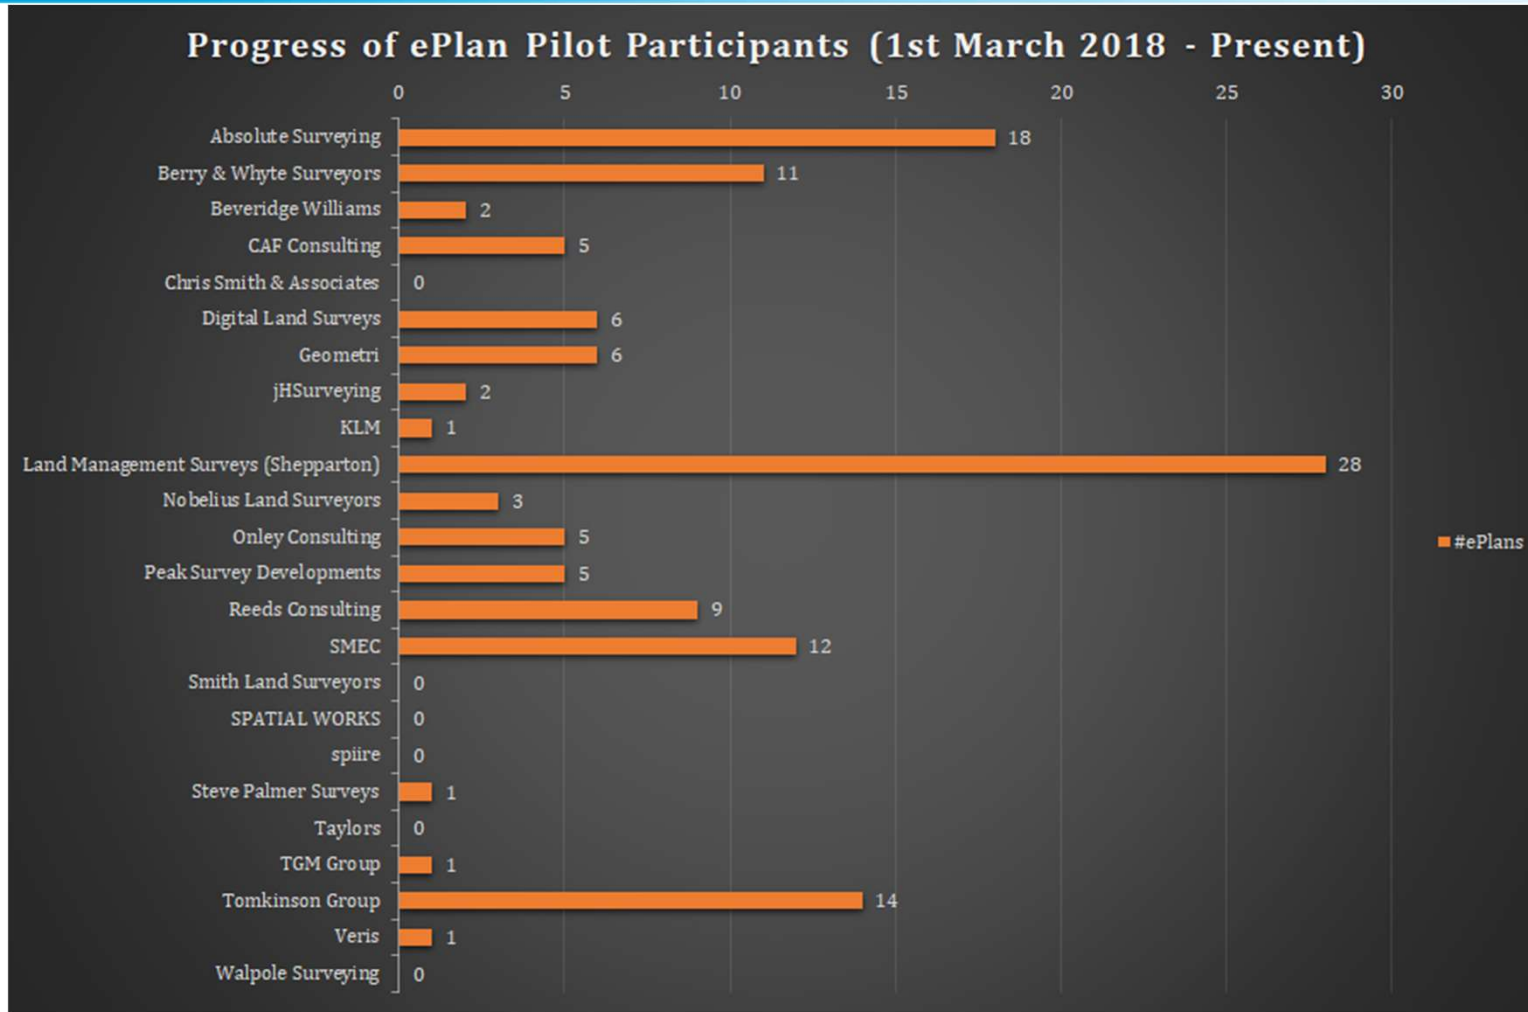

- Improved the visualisation of plan presentation
- Conducted an ePlan Engagement Program
- Contracted the ePlan project with University of Melbourne (CSDILA – The Centre for Spatial Data Infrastructures & Land Administration)
- Developed the Visualisation Enhancement Tool (VET)
- Developed a database for storing registered ePlans
- Commenced ePlan Pilot Program – plans no greater than 10 lots
- Testing ePlan software products
- Training surveyors of ePlan creation
- Investigated requirements of supporting multi-lot plans through case study

Current Initiatives (2019)

- Extending the resources of the SPEAR team to support surveyors
- Investigating possible solutions to facilitate the ePlan creation
- Developing a new ePlan Data Viewer
- Developing VET to efficiently support multi-lot plans
- Updating and improving the Validation and Visualisation services
- Developing a 3D digital cadastre roadmap
- Collaborating with Digital Cadastre Modernisation team

ePlan Pilot Update (Mar2018-Jun2019)

ePlan Pilot Update – Participants' Status

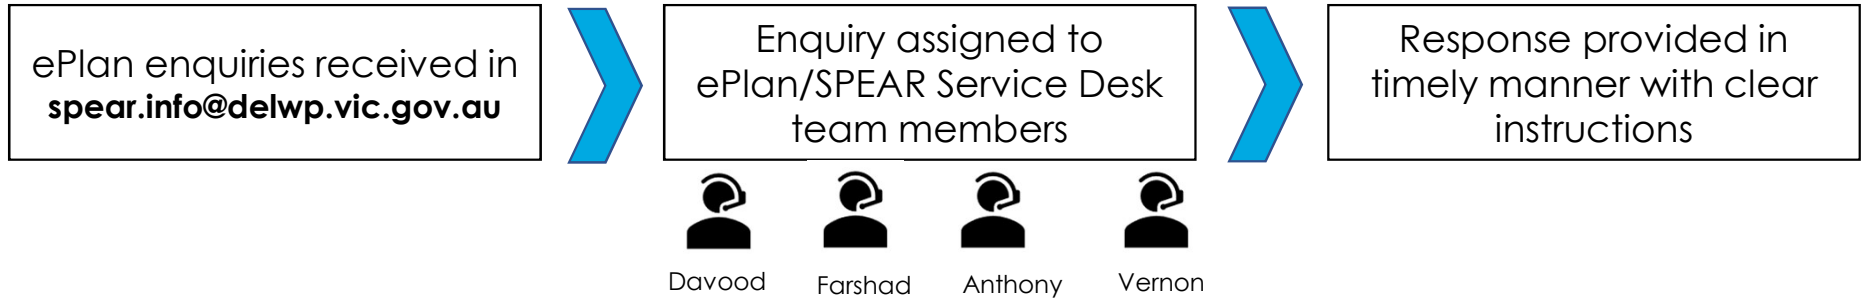

ePlan Pilot Update – Participants' Status

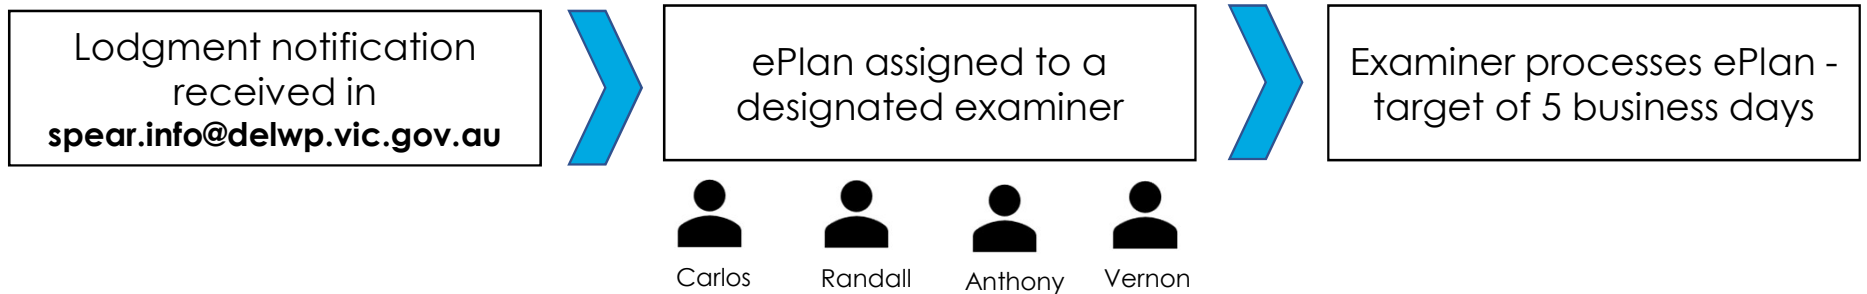

- Surveying firms that have achieved the incentive for quicker registration of non-ePlan applications during the pilot timeframe:
 - Absolute Surveying
 - Land Management Surveys – Shepparton
 - SMEC
 - Tomkinson Group
 - Berry & Whyte Surveyors
 - Reeds Consulting (1 more to go)

ePlan Support Procedure

ePlan Submission

ePlan Registration

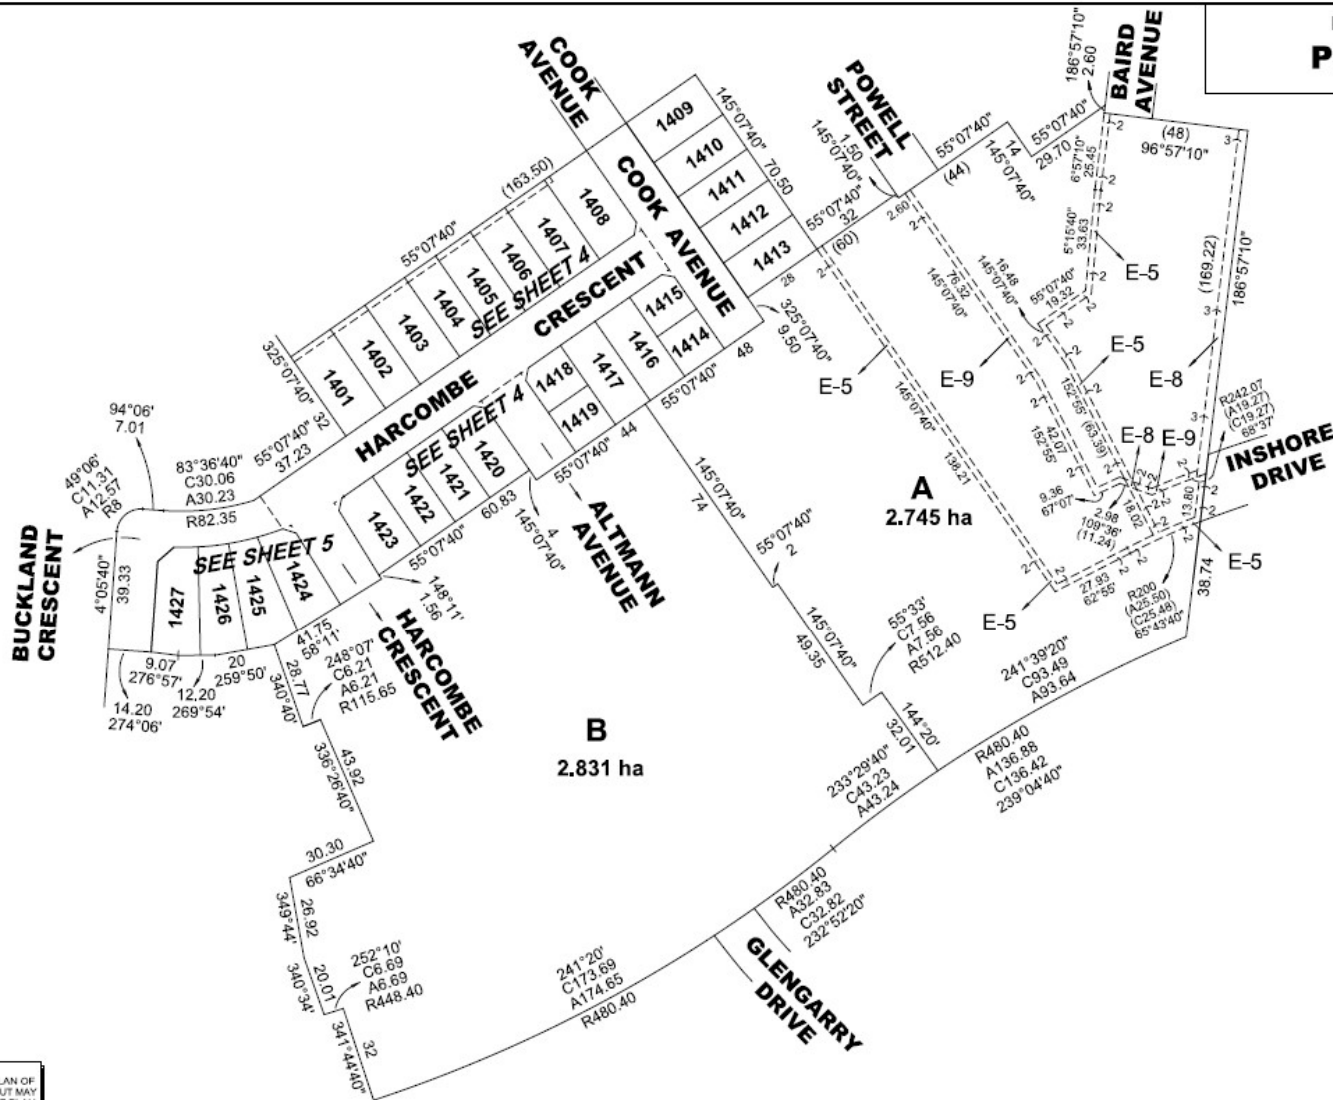

ePlan Pilot - Case Studies

- Benefits in participating in a case study:
 - For 'LUV' to evaluate the ePlan Services in terms of supporting multi-lot subdivisions
 - For 'Surveyors' to understand the ePlan creation process and making ePlan fit into their business processes
 - For 'CAD Vendors' to realise the potential gaps/enhancements in their packages from resultant feedback
- Defined case studies:
 - Reeds Consulting – 27 lots
 - Beveridge Williams – 55 lots, 35 lots and 27 lots

Multi-lot ePlan Case Study Workflow

ePlan Case Studies – Lessons Learnt

- Data preparation:
 - Making data consistent with ePlan requirements (e.g., easements should be captured using polygons)
- Software enhancement:
 - Support multipart created roads

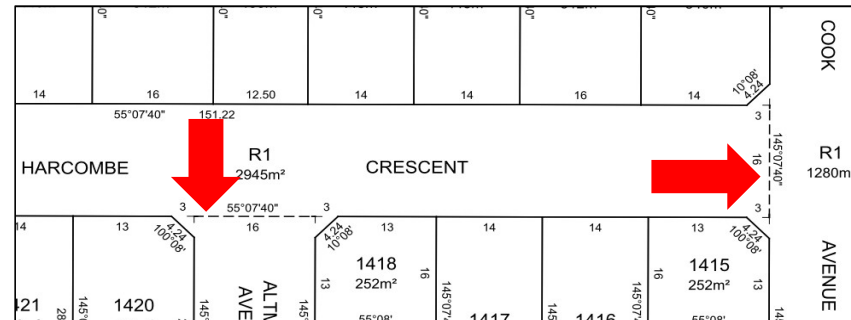

ePlan Case Studies – Lessons Learnt

- More than 40 enhancements for Visualisation Service and VET:
 - Supporting the new Land Registry's policy on Restrictions

PS815490L
<u>CREATION OF RESTRICTION 1</u> THE REGISTERED PROPRIETORS OF THE BURDENED LAND COVENANT WITH THE REGISTERED PROPRIETORS OF THE BENEFITED LAND AS SET OUT IN THE RESTRICTION WITH THE INTENT THAT THE BURDEN OF THE RESTRICTION RUNS WITH AND BINDS THE BURDENED LAND AND THE BENEFIT OF THE RESTRICTION IS ANNEXED TO AND RUNS WITH THE BENEFITED LAND.
BURDENED LAND: LOTS 1401-1427
BENEFITED LAND: LOTS 1401-1427
THE BURDENED LAND CANNOT BE USED EXCEPT IN ACCORDANCE WITH THE PROVISIONS RECORDED IN MCP XXXXXXX.
EXPIRY DATE: 06/07/2028

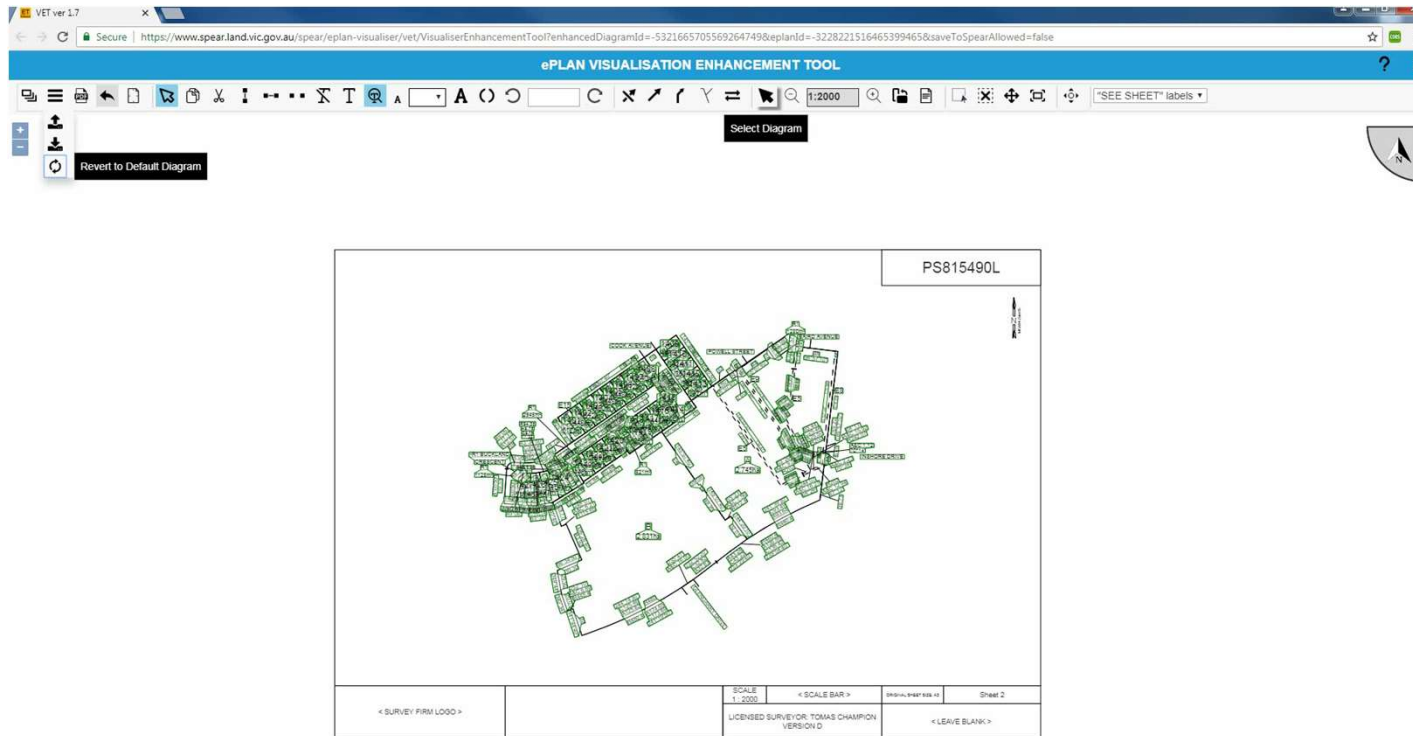

- Displaying a dashed line between parts of created road R1

ePlan Case Studies – Lessons Learnt

- Difficulty in VET to create the 'Key (Index) Sheet' for multi-lot plans

Victorian 3D Digital Cadastre Roadmap – Progress To-date

Post ePlan Pilot Incentive

Land Use Victoria will continue to offer the 5-business day registration target for ALL ePlans after 30th June 2019

Co-design of standard CAD file

An initiative by Surveyor-General of Victoria

Standardising the CAD file format through a co-design approach with LUV and the surveying profession, being led by Craig Sandy

Proposal – CAD file to LandXML conversion

Proposal to streamline the ePlan creation process by developing functionality to convert the standard CAD file to an ePlan LandXML file

Develop web services that include:

- CAD to LandXML conversion
- LandXML to enriched CAD conversion
- Automating the ePlan metadata population based on Vicmap property, Vicmap admin, Vicmap address, SMES, SRBV, etc
- CAD validation to check the CAD file against the standard structure

SPEAR Service Desk Update

Release 4.8 Highlights

Release 4.8

Release 4.8 was released to production in November 2018

Release Notes are available from the SPEAR website at:

www.spear.land.vic.gov.au > About > About the Application > Release Notes

Release 4.8

New Dealing Types in SPEAR

Surveying firms can create new dealings in SPEAR:

- Transfer of Land Act (TLA):
 - Creation of Easement (Section 45)
 - Notification of Easement (Section 72)
 - Acquisition of Easement of Right (Section 88(2))
- Local Government Act:
 - Transfer of Closed Road (Section 207D)
 - Road Exchange (Section 207E)
 - Road Alignments (*previously located under the Transfer of Land Act application type*)

Release 4.8

New Dealing Types in SPEAR

New Dealing Type 'Other':

- Amend Scheme of Development - Owners Corporation (Section 38B)
- Amend Scheme of Development - Lot Owner (Section 38C)
- Major Transport Projects Facilitation Act (MTPFA)
- Supporting Plan Document

The Supporting Plan Document can be used when the surveyor is required to supply survey information to a lodging party in support of a dealing type not processed in SPEAR (i.e. a caveat or a transfer to Queen as to part)

Release 4.8

Rotation of SAFR

The Supplementary Abstract of Field Records document can now be rotated once it has been added

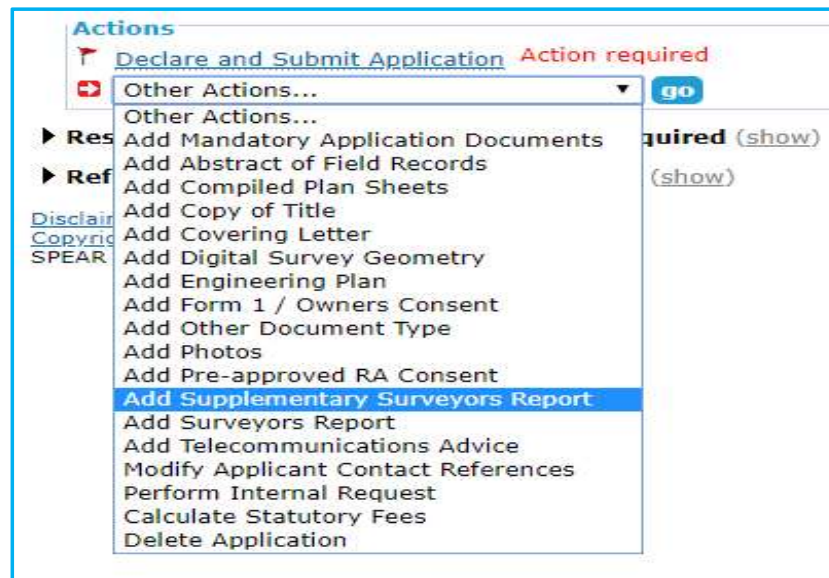

This will assist Applicant Contacts to correct issues with placement of the signing watermark

Release 4.8

Add Supplementary Surveyors Report

Applicant Contacts now have the option to supply a Supplementary Surveyors Report to support the Supplementary Abstract of Field Records (SAFR) document

Release 4.8

Refuse Certification (Form 16)

Councils can now complete the Form 16 (Refuse Certification) on screen instead of attaching a PDF

Certification / Statement of Compliance

- Certification of plan by Council (Form 2)
- Concurrent Certification & Statement of Compliance (Form 3)
- Certification of Acquisition Plans (Form 4)
- Certification and Statement of Compliance of Acquisition Plans (Form 4)
- Refusal (Form 16)

[next >](#) [cancel](#)

Release 4.8

Refuse Certification (Form 16)

Refusal (Form 16)

i You are about to refuse certification of this plan. Once authenticated, the application will be moved to your "Completed Applications" list and no further actions will be possible.

SUBDIVISION (PROCEDURES) REGULATIONS 2011

SPEAR Reference Number: S500097B
Plan Number: (Not Supplied) ([view plan](#))
Responsible Authority Name: Gotham City Council
Responsible Authority Permit Ref. No.: PP1234/114
Responsible Authority Certification Ref. No.: CC1234/114
Surveyor's Plan Version: 3

Refusal

This is a refusal under section 6(2) of the Subdivision Act 1988. The Council refuses to certify the plan under section 6(2).

This is a refusal under section 11(7)(b) of the Subdivision Act 1988. The Council refuses to certify the plan under section 11(7)(b).

This is a refusal under section 21(1) of the Subdivision Act 1988. The Council refuses to issue a statement of compliance for the plan under section 21(1).

Reasons for refusal

A referral authority has refused to consent to the plan (select the Referral Authority refusal(s) relevant and/or 'Other' text as required below):

Other

Include details of the relevant provisions of Section 6(1) which have not been compiled with and/or any other details of grounds for refusal:

[< back](#) [cancel](#) [next >](#)

You then select the required options to create the Refusal (Form 16)

Release 4.8

Designated Contacts

Council can now assign two separate designated contacts for a joint application

Enter Responsible Authority Reference Numbers

* Indicates a mandatory field

Enter Frankston City Council internal reference number relevant to this application.

Permit Reference Number*	<input type="text" value="PP2019/001"/>
Certification Reference Number*	<input type="text" value="CC2019/001"/>
Additional Council Reference Number	<input type="text"/>

Designated Contact - Permit*	<input type="text" value="Bill Koepell"/>	<input type="checkbox"/>	Notify Permit Contact?
Designated Contact - Certification*	<input type="text" value="Peta Harvey"/>	<input type="checkbox"/>	Notify Certification Contact?

Release 4.8

Enhanced Recertification Process

When the user selects 'Add Application to amend certified plan (Form 8)', they will be required to first upload the new plan document (PDF or ePlan), before proceeding to the Form 8 screen

Add Proposed Plan of Subdivision (Form 8)

Plan of Subdivision or Consolidation to be attached

Attach file (pdf, xml, A3, Max file size 15600 KB)

Plan_Of_Subdivision.pdf

If you choose not to attach a file, the existing document will be used.

Surveyor's plan version number *

Nominated Licensed Surveyor

Does this version of the plan change the parcellation or datum? Yes No

Do you wish to Digitally sign the Plan of Subdivision or Consolidation under Regulation 14.1 of the Surveying (Cadastral Surveys) Regulations 2015?

Version information (describe what has changed since the last version in **SPEAR**. For example: New easement on southern boundary of Lots 10 - 15)

[cancel](#)

Release 4.8

Enhanced Recertification Process

On this screen you will complete any other details being changed

Form 8 Regulation 21 Subdivision (Procedures) Regulations 2011
Subdivision Act 1988

SPEAR Application Reference Number: S502738B
SPEAR Plan Number: PS800040D

Application is made to amend the plan certified by Casey City Council on 26/04/2018 which has not been registered by the Registrar.

The amendments are proposed to be made by substitution of a new plan incorporating the amendments

The reason for the application is:

the Registrar considered that alterations of a material nature were required to the plan before it could be registered

a referral authority requires an easement or boundary change to secure compliance with its requirements

other:

Does this proposed plan change the street address allocations submitted for the current certified plan? Yes No

Does this application require an amendment to the Application for Certification? Yes No

Details of Proposed Amendment

	Current	Proposed
Dealing Type	Section 22 (Subdivision)	<input type="text" value="Section 32A (Subdivision)"/>
Plan Number	PS800040D	<input type="text" value="PS800040D"/>
Stage Number		<input type="text" value=""/>
Number of Lots	2	<input type="text" value="2"/>

PeterD Applicant
Oberon Surveys Pty Ltd

This application is referred under section 11(2) of the **Subdivision Act 1988**
Note 1: A plan cannot be amended once it has been registered by the Registrar.

Release 4.8

Enhanced Recertification Process

Note:

If an ePlan Land XML file is supplied, SPEAR will prepopulate known information into the Form 8 screen, including any changes to the plan number, dealing type or number of lots

After completing the Form 8 requirements, the user is returned to the Details screen where they must authenticate the amended documents before submitting the proposed changes to the Responsible Authority

Release 4.8

Council Recheck Street Addressing

Council is now prompted to re-check street addressing if a plan is modified after the addressing is completed and prior to certification or re-certification

This is displayed as a mandatory action, with the following options:

- No changes required to New Street Address Allocations
- Modify New Street Address Allocations

Release 4.8

Notes Tab Indicators

The Notes tab now has an indicator to show the status of the note (read or unread):

- A red tick will be displayed if there is a new note added by another user which has not been read by the logged-in user

- A blue tick will be displayed if there is a note added by the logged-in user or, if there is a note added by another user which has previously been read by the logged-in user

Release 4.8

Deactivate SPEAR User Accounts

SPEAR users who have not logged in to SPEAR for 12 months will be automatically deactivated

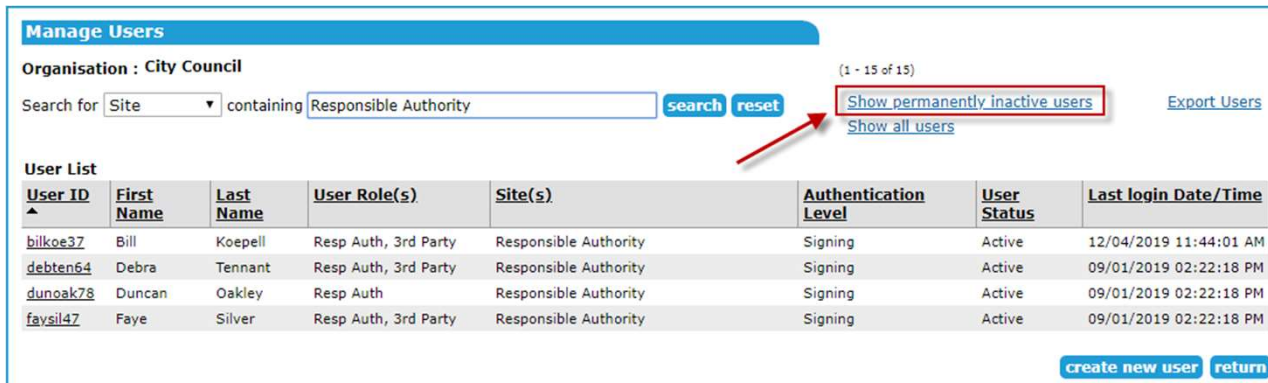

If required, these accounts can be reactivated by your Local Administrator or by the SPEAR Service Desk

NOTE: Reactivate old user accounts rather than creating new accounts!

Release 4.8

Other Matters

Recruitment

The SPEAR Service Desk has been expanded with two new additional Project Officers

- Ongoing support of all SPEAR users
- Supporting surveyors with the additional application types
- Signing up and training of lodging parties
- Supporting lodging parties in the use of SPEAR
- Supporting surveyors with ePlan creation issues
- Continue our SPEAR and ePlan Engagement programs

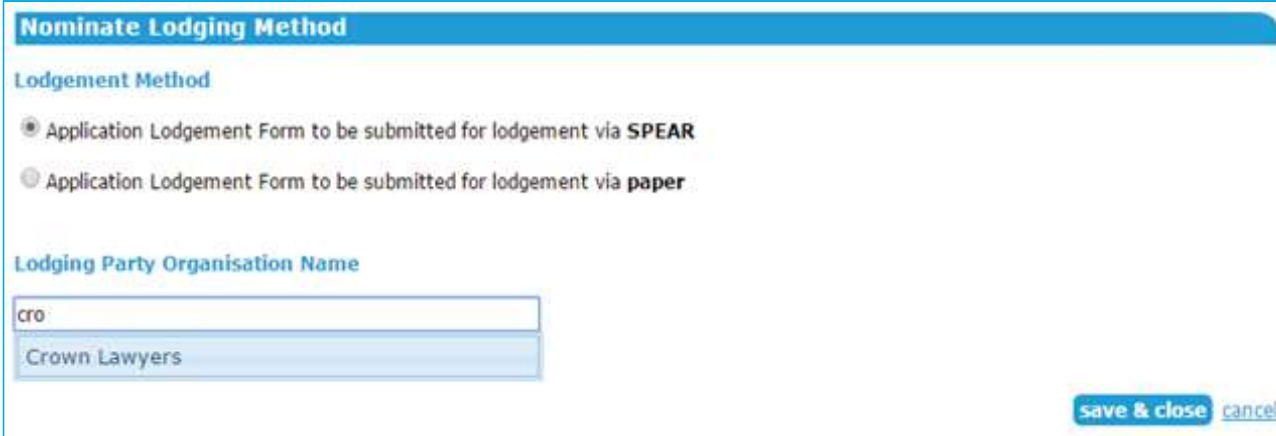

Reminder: Nominate lodging method

Applicant Contacts can nominate a lodging party at any time between the application being submitted to council and released for lodgment

Applications previously nominated in paper may be modified to be a SPEAR electronic lodgment, prior to release for lodgment

Reminder: Nominate lodging method

- Select lodgment via SPEAR and begin typing the name of the lodging party
- If there are no matches then select paper

Nominate Lodging Method

Lodgement Method

Application Lodgement Form to be submitted for lodgement via **SPEAR**

Application Lodgement Form to be submitted for lodgement via **paper**

Crown Lawyers

save & close cancel

Reminder: Nominate lodging method

Thank you

Thank you to all the Applicant Contact firms who have promptly responded to our requests to change their paper nominations to electronic lodgments

This has been an important aspect of our ELN training, and provides for more relevant training when lodging parties are able to deal with real examples

Changes to the Form 13 and Supplementary Abstract of Field Records

In May 2018, SPEAR consolidated the Form 13 – Advice by Licensed Surveyor and Supplementary Abstract of Field Records (SAFR) Declaration into a single Form 13 and SAFR Declaration

Further to this change and following user feedback, SPEAR has altered the parameters around when the document is available and when the mandatory action is presented to Applicant Contacts

Changes to the Form 13 and Supplementary Abstract of Field Records

To allow the Responsible Authority to issue the SOC, one of the following options must be completed:

1. Mandatory Action to 'Add Form 13 and SAFR Declaration':
This action becomes available when the status of an application reaches 'SOC Decision Pending'
2. Other Actions:
Applicant Contacts can use the other actions drop-down list to supply the Form 13 and SAFR Declaration at any time
3. Defer Form 13 and SAFR Declaration:
Applicant Contacts can defer supplying the Form 13 and SAFR Declaration if works are required and not yet completed

Importing permit conditions

- SPEAR met with a number of growth area councils to discuss how to streamline the manage conditions process
- A grant has been provided to growth area councils by the VPA to assist with this
- A number of options were workshopped with the SPEAR team
- Solution needs to be practical for councils and fit into SPEAR model

Importing permit conditions

- Councils investigating excel template (or word macro) for planning permits
- PE1581 – SPEAR to support new excel template to import conditions for:
 - generating a planning permit, and/or
 - creating a manage conditions document
- SPEAR to wait for advice from growth area councils before scheduling this change

LASSI - SPEAR

Late last year, a survey labels related issue in LASSI was identified:

- Only survey labels that met a certain criteria were being displayed in LASSI-SPEAR

This was resolved in December 2018 with a configuration change was made to LASSI-SPEAR to display and retrieve **all** survey labels and their associated documents

New Java Licensing Agreement

Reminder to Signing Users

- All signing users require Java to be installed on their computers to enable digital signing
- Java Version 8, Update 201 is free for commercial use
- The next version, released on 16 April 2019 **requires commercial users to pay a subscription fee**

New Java Licensing Agreement

Reminder to Signing Users

- SPEAR is planning to implement an alternative to JAVA in the next 12 months. Until then, SPEAR signing users can either:
 - Continue using Java Version 8, Update 201, free of charge, without any updates or bug fixes
 - Purchase a commercial Java subscription. More information available on the JAVA website (approximately \$US30 per user/year)

New Java Licensing Agreement

Reminder to Signing Users

Organisations wishing to continue using Java for free will need to decline any prompts to install new versions of Java from April 2019

This information has been published in the April Edition of SPEAR Bulletin (05/04/2019), and Broadcast Message (04/04/2019)

Reminder: SPEAR Training Dates

SPEAR training is hosted at 2 Lonsdale Street, Melbourne.
